Focus Groups Help NVTI Improve and Grow!

Participants expressed high satisfaction, finding the courses and materials relevant and useful, and integrating podcasts and microlearning into their training and onboarding. Improvements in the registration process and website were also noted. Of course, some recommendations were provided to make the NVTI program even better.

This isn't NVTI's first time hosting focus groups. In 2022 we hosted similar focus groups and heard:

- Participants noted they would prefer an online application instead of the fillable PDF document
 - We created a new [online application](#) that streamlines and improves the process
- Participants noted that classes at NVTI Student Central often require too many clicks to access
 - We redesigned several of our online courses with user experience in mind and cut the clicks required by more than half
- Participants noted a desire for more modular, single-day, and just-in-time learning experiences that fit more effectively into their schedules
 - We redesigned the [9610: Career Coaching for Special Populations course series](#) with this in mind and continue to add podcasts and microlearning videos
 - We modularized [9635: A Day in the Life of JVSG Staff in an American Job Center](#) by taking what was one stand-alone eLearning course of approximately 1.5-hours and creating an online curriculum structure with a pre-and post-test as well as five learning elements of approximately 10- to 15-minutes each
 - Participants noted a need for graphic and interactivity improvements in [9608: Deployment Readiness \(DVOP\) Specialist Core Competency Development](#) and we updated the course with improved visuals, gamified activities, and more interactive content

Training

Training those who serve veterans.

For more than 30 years, NVTI has trained a variety of veterans' employment and training professionals, including employment service personnel, veterans service organization staff, Federal and State staff, Department of Defense personnel, Native American groups, county veterans' service representatives, and others.

NVTI was established in November 1986 and authorized in 1988 by P.L. 100-323. The Training and Training Reporter, Volume 18, from 1986 reported DOL VETS was piloting two tracks for DVOP specialists and LVER staff. The courses were held the week of November 30 and the week of December 14, 1986, respectively.

Under Title 38, Sec. 4109 USC, NVTI is bound by law to provide specialized training to veterans' groups. While NVTI does not work directly with veterans, we train the personnel who help veterans find and retain gainful employment.
